Overview

Junior Achievement programs offer a multidisciplinary approach that connects learning across social studies disciplines, such as economics, geography, history, government, and civics, while incorporating mathematical concepts and reasoning and language arts skills.

In this document, Junior Achievement programs are correlated to the Alabama College-and-Career-Ready Standards for Social Studies and the Career and Technical Standards as well as the Common Core Standards for English Language Arts (ELA) and Mathematics.

Often, Extended Learning Opportunities within the curriculum directly support an academic standard. When indicated, the letters ELO will appear superscripted next to the standard.

This list is not meant to be exhaustive or intended to suggest that a JA program will completely address any given standard, but is designed to show how it can enhance or complement efforts to do so. The flexibility of the programs and supplementary materials allow specific content or skills to be addressed in depth by the teacher and/or business volunteer as needed.

JA Middle Grades Programs

[JA Economics for Success](#)[®] provides practical information about personal finance and the importance of identifying education and career goals based on a student's skills, interests, and values.

[JA Global Marketplace](#)[®] Blended Model introduces students to the global marketplace and the ways in which countries buy and sell from each other. Through completion of this program, students will gain an understanding of the role of producers and consumers in the interconnected global market.

[JA It's My Business!](#)[®] encompasses entrepreneurship curriculum for students in grades six, seven, and eight. Students are encouraged to use critical thinking to learn entrepreneurial skills that support a positive attitude as they explore and enhance their career aspirations.

[JA It's My Business](#)[®] Blended Model provides middle school students an opportunity to experience the initial steps necessary to start a business. New program content provides an authentic entrepreneurial experience for students, with each session building up to a product-pitch competition

[JA It's My Future](#)[®] provides practical information about preparing for the working world while still in middle school.

[JA It's My Future](#)[®] Blended Model offers middle school students practical information to help prepare them for the working world. Students develop the personal-branding and job-hunting skills needed to earn a job.
